

Digital Transformation In a **BOX**

Canon

ARE YOU FACING THESE CHALLENGES?

Small-to-medium sized businesses face numerous challenges in managing their content & information

Low productivity

Inefficient processes and systems slow daily activities and distract employees from their core roles, **costing time and money.**

Weak security

Security breaches incur costs and damage brand image or reputation.

Poor efficiency

Not finding documents just because the user cannot remember where they saved it. **Recreating** documents just because of this.

Lack of visibility

Unstructured information Silos, content is saved on multiple information repositories

Compliance

Protection of personal information and the ECT Act, as information grows it is becoming more and more difficult to control content on your network

Kick start your business onto the journey of **Digital Transformation**

Canon
